

PRAYER & PRAISE

NEW THIS WEEK:

Anonymous Please pray for a young mother who has been struggling for some time with anxiety, depression and alcohol addiction.

Corrine Soave My husband Jason and I are asking for prayer for his mother, Shelia. Her health has been declining and we have some tough decisions to make regarding her care and next steps. We're asking God to intervene and continue to heal her.

Courtney Reynolds Everything went well with my dad's surgery! He came home on Wednesday and is recovering. Thank you for praying.

CONTINUE TO PRAY & PRAISE:

Amy Satterla Thank you for your prayers for my family. My father's surgery went well and his recovery is anticipated to take six weeks. My surgery went exactly as we had hoped. I give all the glory to God and am forever grateful for my New Hope family.

Bob & Diane Stuart Our son, Brian, has been in excruciating pain with a herniated disc. He underwent surgery this week. We appreciate your prayers.

Taylor is requesting prayer for her son Lincoln. He was born prematurely and is not developing as he should.

Joyce Robinson My husband, Mark, still has blurry vision in his right eye after cataract surgery in January. Please pray for healing, wisdom for the doctors and guidance from the Spirit.

Lorrie Scharton is waiting on the results from a biopsy. Please pray for a good outcome and for faith, strength and peace in the meantime.

Marianne Funnell is requesting prayer for healing from a tumor on her pituitary gland which burst recently, hospitalizing her for 10 days. Please pray she is able to find the appropriate doctors and have wisdom regarding her course of treatment. She and her husband Bruce have missed their New Hope family since moving to Florida.

Jack & Gigi Saunders Please pray for our daughter and son-in-law, Anthony. He has leukemia and is in need of a bone marrow transplant soon. Please pray that a matching donor will be found quickly. They have two small children and another on the way.

Rose Pierce Please pray for my sister. She has a rare, inoperable spinal cancer that has caused debilitating side effects. The treatments have been unsuccessful thus far.

Sherry Dunham Thank you for your prayers for my mom, Betty. Her radiation treatments have started on the tumor in her arm and will continue for two weeks. Please pray for minimal side effects. Pray also for wisdom and peace since a new lump was discovered in her abdomen.
